

Principal Investigator:

Study Title:

Please complete if you will maintain data and/or specimens for future use research.

1. Data Use

a. Who will use the data? Check all that apply:

- ☒ Principal Investigator
- ☐ The PI's students
- ☐ Other researchers at Princeton University Researchers at other institutions
- ☐ Future use is unknown at this time

Note: Future use of this data by the Principal Investigator and/or students will require a separate application to the IRB for approval, unless that use is included in this application.

b. If the data is to be released to other researchers, describe policies to ensure that data is used appropriately:

Click here to enter text.

2. Data Storage

a. Describe how the data is to be stored, including location:

Click here to enter text.

b. Who will have access to the data?

Click here to enter text.

- c. Describe protections in place to restrict access to authorized persons:

Click here to enter text.

- d. Will the stored data be identifiable? ☐ Yes ☒ No

If yes, explain why this is necessary. If no, explain how the data will be de-identified.

Click here to enter text.

- b. Will the data be coded? ☐ Yes ☐ No

If yes, explain how the data will be coded and how the key will be secured:

Click here to enter text.

3. Consent

- e. Will the subjects give their consent to have their data stored for future use? ☐ Yes ☐ No

If yes, explain how this will be done. If no, explain why this is necessary.
